

19th August 2014

To whom it may concern,

In my former role as Supervisor at Probuild Civil Pty Ltd I have employed MJ Smith Ground Preparation as a Sub Contractor on a few occasions, most recently has been at Chinchilla working on Tara - Kogan Rd upgrades for QGC as the main Principal, works package of about 22 Million dollars. Other projects included was the flood damage package at Stanthorpe and Warwick for Southern Districts Regional Council, works totalling approx. 18 Million. They met all time frames and on budget that provided Probuild Civil a very successful Project.

I have always found MJ's a complete professional organisation, they have provided a high standard in their work, reliability and attention to clients' needs and requirements. They have committed crews that will go above and beyond to get the job done.

I have also found that their systems and procedures are at the highest level with a solid and committed team in working in the background meeting all that is required to work with our needs and OH&S requirements.

I would not hesitate to Employ MJ Smith Ground Preparation for future Projects, if needed to discuss further in detail please contact me on the below listed numbers or via email.

Regards,

Rob Collins
